FRANK H. TENNYHILL.

Formerly of Lugan. Sustained Injuries From Which He Died.

Finai LIMA, OHIO, January 21st, 1905. Frank H. Tennyhill, a young machinist apprentice, student and the Commercial block, at 2 o'clock a m. this morning, death resulting Many witnesses, including electri-For the Fisca Thursday evening while exercising in the gymnasium at the Y. M. C.

A. building. The fatality is indeed a sad and deplorable one and is the result of the only serious accident that has HOCKING COUNTY ever occurred in the local Y. M. C. A. gymasium during the history of the association in this city. It was an accident of a character that At the Court House in Logan, O. RECEIPT Cash on hand at close of 1 might not occur again under similar circumstances in years and was also one for which no blame can possibly attach to Physical Director Shepard or any of the other

officials of the association. The unfortungte youth was 18 years of age and had been a member of one of the gymnasium class-PROFIT AND E es and had also been attending some of the night school classes in the educational department for Pass book and initiation fee some time. Thursday evening before the gymnasium class for the evening had been called, and before Physical Director Shepard had arrived at the floor of the gymna sium, young Tennyhill and some w. W. McCray, being dall companions began to amuse themgan House and Saving Associated that any of percenter, being and ability and attempted condition at the end of said that which has always been prothat which has always been prohibited in the gymnasium-the performance of a difficult feat without the presence or approval of the physical director. Tennyhill placed his hands on a low horrizontal bor and attempted to jump between them without releasing his hold. His toe caught the bar, he lost his hold and pitched headforemost onto a thin mat on the gether with the manner in which the young athlete's head hit the mat produced a vertebral fracture H. THE ORIGINAL LIVER MEDICINE

A sallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. Thedford's Black-Draught never fails to benefit diseased liver and weakened kidnevs. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys re-inforced by Thedford's Black Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and have no other doctor than Thedford's Black-Draught. It is always on hand for use in an emergency and saves many expensive calls of a doctor.

Aullins, S. C., March 10, 1901.
I have used Thedford's Black-Draught for three years and I have not had to go to a doctor since I have been taking it. It is the best medicine for me that is on the searket for liver and kidney troubles and dyspepsia and other complaints. Rev. A. G. LEWIS. 1 Commence

CHAS. H. BECK,

MONTALY REVIEW OF REVIEWS The more Magazines there are, the more Indispensable is The Review of Reviews "Indispensable." "The one magazine I feel I must take." "The "Indispensable," The one magazine I feel I must take, "The world under a field-glass," An education in public affeirs and current literature,"—these are some of the phrases one hears from noted people who read the Review of Reviews. The more magazines there are, the more necessary is the Review of Reviews, because it brings together the best that is in all the most important monthles of the world. Such is the flood of periodical literature that readely a readely at that the architecture of the control of the world. periodical literature that nowadays people say that the only way to keep up with it is to read the Review of Reviews. Entirely over and above this reviewng section, it has more original master and illustrations than most magazines, an the most timely and important articles printed in any monthly. Probably the most useful section of all is Dr. Albert Shaw's illustrated "Progress of the World," where public exerts and issues are authoritatively and lucidly explained in every issue. Many a subscriber writes, "This department alone is worth more than the price of the magazine. The unique cartoon department, epicting current history in caricature, is another favorite. The Review of the leviews covers five continents, and yet is American, first and foremost. Men in public life, the members of Congress, professional men, and the great aptains of in ludry who must keep "up with the times," intelligent men and omen all over America, have decided that it is "indispensable."
